REROOF WINDSTORM LOSS MITIGATION COMPLIANCE AFFIDAVIT

To be completed if the value of the single-family residence is over \$300,000 and built prior to March 1, 2002. Must be completed by a licensed General, Building or Residential Contractor or State of Florida registered Architect or Engineer.

Description of Work: _____

Job Site Address: _____

License Holder's Name: _____ License No: _____

Company Name: _____ Phone No: _____

I, _____ do hereby affirm that the residential structure is valued at \$300,000 or more and has the following existing roof-to-wall connection which complies to the Windstorm Loss Mitigation requirements as per Florida Statute 553.844.

Check one of the following:

- ☐ The existing roof-to-wall connections meet the current code requirements for roof-to-wall connections and/or roof-to-foundation load path requirements.
- ☐ The roof-to-wall connections will be enhanced up to 15% of the cost of the roof replacement using metal connections, clips, straps and fasteners to achieve an uplift capacity as specified in Table 201.3 of the Hurricane Mitigation Retrofits for Existing Site-built Single Residential Structure Manual.
- ☐ The evaluation and installation of the roof-to-wall connections at gable ends or corners cannot be completed for 15% of the cost of the roof replacement.

Signature of Contractor, Architect or Engineer
